CAREER OBJECTIVE

Entry-level software engineer with a strong foundation in software development concepts. Seeking an opportunity to contribute to real-world software projects, enhance my technical skills, and grow in a professional environment.

EDUCATION

Bachelor of Technology in Computer Engineering <i>RK University</i>	2023 – Pursuing <i>CGPA: 7.69</i>
12th HSC <i>The School of Science - SOS</i>	2022 – 2023 <i>Percentage: 86.81%</i>
10th SSC <i>Shree Raj Schools</i>	2020 – 2021 <i>Percentage: 98.28%</i>

TECHNICAL SKILLS

Programming Languages: C++, Python, C#, Javascript, Dart
Frontend: HTML, CSS, Bootstrap, React.js
Backend: Node.js, Express.js, PHP
Databases: MySQL, Firebase
Frameworks & Technologies: Flutter, ASP.NET Core
Core Subjects: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks
Tools: Git, GitHub, VS Code

PROJECTS

Jewello – Online Jewellery Shopping App | *Flutter, Firebase*

- Flutter mobile app for browsing and ordering jewellery with role-based screens for users and admins.
- Enables search, filter, wishlist, cart, order placement, and order history for customers.
- Admin panel within the app for managing products, orders, and customer data.

Appointment Booking System | *C#, .NET Windows Forms, SQL Server*

- Built a C# Windows Forms application to manage appointments with CRUD functionality for doctors, patients, and bookings.
- Connected the .NET application to SQL Server LocalDB using ADO.NET for storing and retrieving data.
- Implemented patient and doctor record management, booking scheduling, update and cancellation features.

Hotel Management System | *PHP, MySQL, JavaScript, Bootstrap*

- Built a dynamic web-based hotel room booking and reservation management portal.
- Implemented CRUD operations for rooms, customers, and bookings using MySQL database.
- Created admin interface for managing bookings, customer details, and reservation statuses.

CERTIFICATES

Dart and Flutter: Ultimate Mobile App development course - Udemy	Nov 2025
Introduction to Cybersecurity - Cisco	May 2025
The Joy of Computing using Python - NPTEL — Awarded: Elite	Jan – Apr 2024

PARTICIPATION

Ideation Bootcamp & Hackathon

February 2024

RK University

Code Cracker – Technoplanet 2024

October 2024

RK University

TechFusion 2025: Innovate and Integrate the Future

September 2025

Mobile App Development for Social Impact Track – RK University

AREA OF INTEREST

Mobile Application Development • Full-Stack Web Development • Cybersecurity
